## OBJECTIVE, WEB DEVELOPER

Solution-driven web developer excelling in a highly collaborative or solo work environment, finding solutions to challenges and focuses on client satisfaction.

Proven experience with writing APIs and building a database using PHP and MySQL. Also proven experience with JavaScript, HTML, CSS, JQuery, Bootstrap. Used React.js with Redux and Axios to communicate the backend with frontend development.

Experienced in building products for desktop, and mobile app users, meeting the highest quality standards for web design, user experience, best practices, usability and meeting deadlines.

Responding to challenges by designing, developing solutions and building web applications aligned to customer's services.

Translating solutions into code and working across many different APIs, third-party integrations and databases.

Working with developers that are passionate about technology and want to integrate new ways of developing software.

- MySQL
- PHP
- JavaScript
- Writing Unit Tests
- React.js - Redux and Axios
- HTML and CSS
- Version Control (Git Bash)
- Writing RESTful APIs

## EDUCATION

**Deep Dive Bootcamp Fullstack Certificate** ✓

**CNM Ingenuity (October 2019 – December 2019)**

This cohort consisted of 10 weeks to create a web application in collaboration with a group of other cohort classmates using languages such as PHP, MySQL, RESTful APIs, React.js, JQuery libraries. We also had to create our own personal website during this 10-week period with on-going assignments and assessments to prove our skills.

## EXPERIENCE

- **Social media experience on Twitter and Facebook. I also handled emails using Salesforce. These operations were under the context of technical support for Boingo Wireless internet company. June, 2016 – August, 2016**
- **Remote Technical Support Advisor for Apple in contract of Concentrix. December, 2017 – June, 2019**
